## GEORGE LAKIS PHOTOGRAPHY

From medical-scientific photography in the operating room to macro photography of birds, plants and animals in the wilds, George Lakis has a lifelong passion and talent for integrating art and technology for aesthetic, corporate and educational purposes.

Lakis began his career photographing and videotaping surgeries in real-time for live broadcasts and distance learning. In 1986, Baptist Health Systems (South Miami Hospital) recruited him to pioneer an educational audio-visual department supporting a 528-bed hospital. His role at Baptist quickly expanded and today Lakis controls a \$15 Million global media services/Information technology department comprised of graphic artists, photographers, videographers and IT staff that provides telemedicine, distance learning, teleconferencing, video production, slide shows, website design, audio-visual and other related services worldwide.

Born in Athens, Greece, Lakis has an inquisitive nature that has led him to visit more than 80 countries for his photography. His portfolio contains more than a million images, many of which have been presented internationally and grace the hallways, offices, classrooms and auditoriums of hospitals and executive suites. In recent years, Lakis has focused much of his photographic endeavors on capturing a world not often seen with the naked eye – extreme close-up shots of exotic flowers, aquatic life, equestrian shows and architectural details among a long list of subjects.

Lakis has extensive graduate experience in business administration and industrial engineering as well as a bachelor of fine arts degree from Florida International University. He is an active member of numerous international communications and trade organizations including but not limited to the American and European Telemedicine Associations, Health Care Information and Management System Society, and The Biological Photographic Association. Mr. Lakis has participated at several international and domestic Congresses, hosting live broadcasts of interactive surgical presentations. Additionally, he has presented and written extensively on emerging applications and market trends affecting telemedicine.

# European Imagery

## **European Images**

Europe is a popular place to visit. Every year, millions of people come to immerse themselves in the continent's rich diversity of history, architecture, art and landscape. You could spend a lifetime attempting to explore the ins and outs of every country and not be able to cover it all. First of all, where would you start?

The images in this catalogue cover 18 European countries: Austria, Belgium, Croatia, Czech Republic, Denmark, Estonia, France, Germany, Greece, Hungary, Italy, Netherlands, Norway, Poland, Russia, Spain, Sweden and Switzerland. While the continent itself covers 4 million square miles, these enticing playgrounds cluster in the northwestern and central areas, as well as along the Mediterranean coast to the south.

## **History**

Europe makes most of the rest of the world seem adolescent. From the ruins of ancient Greece to the spectacular cathedrals of Spain, every square inch of Europe seems alive with history! Talk to the Estonians who swear their ancestors lived there long before the Egyptians built the pyramids. A walk along many of the streets and backwoods of Europe will make you believe you have been somehow transported back in time. The timeless images in this catalogue offer a range of historic subjects to match your particular interest and taste.

## **Architecture**

No discussion of Europe is without mention of the unparalleled architecture stretching across the continent. There's France and the Eiffel Tower, Italy with the leaning Tower of Pisa and great monuments from the Renaissance, Russia with its onion-domed St. Basil's Cathedral, and Prague in the Czech Republic and Budapest in Hungary, both vibrant cities with rich architectural and cultural heritages. A glance through the pages of this catalogue reveals the wealth of architectural wonders available for your wall space.

## **Art & Landscape**

It is difficult to single out one country for its reknown art or for its natural beauty. Tour Vienna, Prague, Moscow, Budapest, Luxembourg, Amsterdam and Monaco on the pages of this catalogue for a mesmerizing kaleidoscope of public art in front of, inside of, and carved into buildings. As for enchanting landscapes, pick your view! There's the Swiss Alps in Switzerland, the white-washing villages of Greece, the tranquil fishing villages of Spain as well as the many waterways of Europe scattered with colorful sailboats waiting to set sail.
